---

Assigned: 15 November 2019

Due: 2 December 2019

Cutoff: 6 December 2019

**Create a File Menu in your GUI**

Add a file menu to your CandleGUI with options to open any file for reading (and displaying the file as in Project 2), and one to Quit the program. You will need a FileMenuHandler class to handle the events from the FileMenu.

Create a jar file called **Project3.jar** and submit that to Blackboard by the due date for full credit.
